

Important Information about the Madera Cemetery District

- We ask that mortuary staff or families call the cemetery staff to check on available dates and times prior to coordinating chapel or church services for the families.
- The next of kin will need to sign paperwork, i.e. interment order, sales invoice, ect.
- All fees will be collected at least 48 hours in advance by the cemetery staff prior to the scheduled burial
- The mortuary or families are responsible for coordinating pall bearers or pre-setting of the casket. The District will assist as needed, but we request that the mortuary staff call in advance. There will be limited cemetery staff to assist on weekend services.
- Cemetery space and services fees are more affordable than private cemeteries because the District receives property tax funds to help fund its operations.
- The cemetery does not have any mortuary or chapel services, graveside or arbor only.
- The cemetery does not sell markers, or flowers. You can purchase these from the mortuary or monument company, as long as they comply with the District's specifications.
- The Cemetery is an "Endowment Care" cemetery, which means that the cemetery will collect a "one-time" endowment for the space, mausoleum, niche or cremation burial for the perpetual care of the grounds. Once paid, the endowment fee is non-refundable.
